Dr. Carita Doggett Corse Federal Writers' Project Jacksonville, Florida

Dear Doctor Corse:

I am wondering whether the Library of Congress has furnished either your office or that of Mr. Black with duplicates of the recordings Messrs. Kennedy, Cook and I made in Tarpon Springs and of the ones I made independently at Masarycktown and Slovia. If so, is it possible to obtain the use of them right away? I am turning now to my dissertation and should like to use certain of the songs to represent the various foreign cultural groupings in Florida.

I shall appreciate hearing from you at your convenience.

Sincerely yours, ALTON C. MORRIS

P. S. You may be assured that I shall take the very best care possible of the records.
